SUMMARY

Analytical Full Stack Developer with nearly 2 years of experience delivering high-performance SaaS solutions. **Collaborated within Agile** teams to architect multi-tenant platforms and optimize backend systems, achieving a **25% reduction in API latency**. Proven expertise in **React.js, Next.js, and Node.js and TypeScript**.

PROFESSIONAL EXPERIENCE

Rysun Labs | Software Developer | 06/2024 – Present

Project: Ecube - eHSM (Full Stack Developer)

- **Spearheaded** the design of a modular SaaS architecture for a club management platform, supporting **20+ clubs** from a single codebase.
- Developed responsive UIs using **React.js** and **TypeScript**, boosting component reusability by **25%** and decreasing code redundancy.
- **Optimized MySQL performance** by implementing stored procedures and indexing, reducing API latency from ~300ms to ~225ms under load.
- **Integrated Admin platform services with external member-facing platforms**, enabling real-time data synchronization for 20+ clubs and guiding cross-team API implementation.

Project: E2f - Client Project (Full Stack Developer)

- Deployed a robust workflow engine managing **5,000+ daily operations** for a task management system.
- **Increased UI responsiveness by 35%** on the admin dashboard by implementing **virtual scrolling** for large datasets.
- **Authored 30+ GraphQL and REST endpoints** in NestJS, utilizing DTOs and resolvers to minimize JSON payload sizes.
- **Deployed infrastructure on AWS**, configuring S3 buckets and EC2 instances with a normalized MySQL schema for scalability.

Infigon Futures | Front-End Developer Intern | 12/2023 – 05/2024

Project: EdTech Platform

- **Launched** the frontend of a greenfield EdTech project, building intuitive admin and student portals from scratch.
- **Reduced page load time by 20%** by migrating client-side components to **Server-Side Rendering (SSR)**.
- **Implemented RBAC security**, defining user roles to restrict sensitive data access and improve compliance by 18%.
- **Built a Tailwind CSS UI library** in collaboration with designers, increasing frontend development velocity by 17%.

SKILLS

Languages

JavaScript (ES6+), TypeScript, Python, C, HTML5, CSS3, SQL

Databases

MySQL, SQL, MongoDB

Tools

Git, GitHub, VS Code, Postman, ESLint

Other

Agile/Scrum, Server-Side Rendering (SSR), Component Libraries

Frameworks & Libraries

React.js, Next.js, Node.js, Express.js, NestJS, Redux, Tailwind CSS, SASS, Bootstrap

Cloud & DevOps

AWS (EC2, S3), Deployment, CI/CD

APIs

REST, GraphQL

EDUCATION

B.Tech in Electronics and Communication Engineering

Gayatri Vidya Parishad College of Engineering

08/2019 – 06/2023

CERTIFICATIONS & ACHIEVEMENTS

- **AWS Certified Cloud Practitioner**
- **LeetCode**: Solved 300+ algorithmic problems focusing on data structures and performance optimization.
- **CAT-2023**: Secured 96+ percentile in Data Interpretation & Logical Reasoning (DILR), highlighting strong analytical capabilities.
